## Airbrasive Work Chamber Tech Sheet

### Work Chamber

### Features

- ✓ Rubber arm holes for easy access
- ✓ Screened bottom to contain spent particles
- ✓ Drop-down front panel for larger parts
- ✓ Internal LED illumination
- ✓ Rear exhaust port to connect to a Dust Collector

### Description

These chambers are designed specifically for handheld work. With a tempered safety glass top, LED illumination, screened bottom, and conveniently sized port holes, our work chamber creates an easy-to-use and clean microblasting environment.

The enameled steel frame can be used with any of our Micro-Abrasive Blasting Units and can be used in both laboratory and production environments.

We recommend these Work Chambers be used in conjunction with a Dust Collector.
